Venue Schauenberg Hall prepared

On Friday evening, members were still playing volleyball and table tennis, they were fencing and practicing martial arts in the gymnasiums of the FT Sport Park. Since Saturday, just 2 days later, one would never know. World Championship flags are waving, the facilities have been rearranged and the

first roller figure skaters are doing their laps on the surface. All rooms surrounding the rink in the Schauenberg Hall were refurbished and are at the entire disposal of the world's best Figure Roller Skating Juniors for the World Championships until the 17th of November. The Burda Hall has transformed into a Fair/Exhibition, the table tennis and judo halls have been converted into the internet/media center and snack and coffee bar respectively. The remodeling could not have gone smoother, the highlight of which was the mounting of the 300 kg awards podium made especially for the World Championships (see photo). Particularly challenging was hanging a 35 meter long Christina Lüthy custom-made canopy on the ceiling of the Schauenberg Hall. The rolling backdrop for the Opening and Closing Ceremonies were also installed in time for the dress rehearsal, which took place on Sunday afternoon, led by Michael Obrecht. Imbedded in a Roller Sports Gala choreographed by Michael Obrecht, the colorful Opening Ceremony is well worth seeing should not be missed by any Roller Sports fans. Tickets are still available for the Opening Ceremony of the Juniors (13.11.) in the Schauenberg Hall, as well as for the Master Class (17.11.) in the Messe Freiburg (Freiburg Fairgrounds).
